Dear Anaheim Union High School District Community,

As we continue to look towards the future and develop world-class educational programs that nurture and unleash the unlimited potential for our students, your input is extremely valuable. Each year, together as a school community, we revise and refine our Local Control Accountability Plan (LCAP). Your thoughts and opinions help us shape our vision and priorities as we ensure our students graduate college, career, and life ready.

Please take a few minutes to click on the link below to complete our community survey:

Fill out our community LCAP survey in :

English here: <https://www.surveymonkey.com/r/C9QS5QK>

Spanish here: <https://www.surveymonkey.com/r/CDLKGPM>

Vietnamese here: <https://www.surveymonkey.com/r/CY8B5MZ>

Korean here: <https://www.surveymonkey.com/r/CYXZFNX>

The LCAP is the way the State of California allocates funding to local school districts. Under the new Local Control Funding Formula (LCFF), state funding for schools is designed to be more flexible, allowing for more local control over academic spending priorities.

We are asking our stakeholders for input, specifically focused on the following LCAP goals:

- All students will demonstrate college, career, and life readiness and success
- Provide meaningful educational engagement opportunities for all parents and families to advocate for all students
- Provide and nurture a safe, reflective, responsive, and positive school culture

Your input in these areas will be gathered and used to inform the development of our 2019-20 LCAP. For those who are interested in viewing our current LCAP, please visit our District website at the following address: <http://www.auhsd.us/district/index.php>

Thank you for your continued support and participation. All the amazing people in the Anaheim Union High School District community remind us of why we must continue to move AUHSD from good to great!

Respectfully,

Michael B. Matsuda

The new semester means new electives for some students. The new photography students went on their first photo walk of the semester to get to know one another and practice the basics of how to hold a digital SLR camera, set up the camera for use, and use the camera on Program mode.

CELEBRATING OUR TEAMS

We celebrated our 2nd quarter athletic teams today at lunch with a pizza party! Our teams all made 1st and 2nd places in all our sports: basketball, soccer and tennis!

Orange County Peer Court

February 19, 2019

Peer Court involves an innovative process through which teenage students – ages 11 to 17 – recommend sanctions for first-time juvenile offenders. About 240 minors appear before Peer Court juries each year. Members of the jury pool earn three hours of community service.

Operating under the authority of the County of Orange Probation Department, Orange County judges preside over the sessions and select student juries from the audience. The jurors ask questions of the juvenile offender and parent(s), deliberate with the assistance of an attorney advisor and recommend sanctions to the Court to help get the minor back on the right track. The Judge issues the final decision on sanctions with the Probation Department supervising completion of the court-ordered sentence.

GABBY JONES/BLOOMBERG NEWS

The Rise of Vaping

E-cigarettes--devices that vaporize liquids laced with nicotine and other ingredients--are soaring in popularity. Chief among them is the Juul, made by Juul Labs Inc., which is attracting both huge investment and public reprobation. Teens have flocked to the device, which has led to concerns about nicotine addiction and a scramble by parents to get their kids unhooked from vaping. Trouble is, no one seems to quite know how to treat nicotine-addicted kids. For one, replacement therapies such as patches and lozenges have either not been tested on teens or have shown limited effects in studies, Betsy McKay reports.

Meanwhile Altria Group, maker of Marlboro cigarettes, is nearing a deal to take a 35% stake in Juul Labs at a roughly \$38 billion valuation. That would make Juul one of the most valuable private companies. Altria would get access to a rapidly growing but increasingly controversial segment of the nicotine market, as Juul has been accused of appealing to kids with hip marketing and fruity flavors.

Juul Labs says its product is meant as an alternative to cigarette smoking for adults and the company is working to keep the Juul out of kids' hands. But will continued fallout over teen use ding Juul's growth prospects? Share your thoughts by responding to this email.
