

Hello Lions,

This week we will be conducting make-ups for all 7th & 8th graders who have not completed their CAASPP (California Assessment of Student Performance and Progress) – English & Math portion. **8th graders will start the CAST (California Science Test) in their science classes.** Students will attend their regularly scheduled classes during the day and only test in the classes indicated above. If your student is experiencing challenges during remote testing, please see the Remote Testing Troubleshooting 2020-21 handout. If you are still unable to troubleshoot the issue, please contact the school at 714-220-4201 for further assistance.

Textbook and materials collection / yearbook distribution will take place May 3 – May 28 (See following pages for details)

- 5/3 - 5/28 - Textbook and materials collection
 - All times will be during asynchronous time period. 1:00pm – 3:00pm
 - Location for collection - front of school by library door
- 5/26-5/28
 - Times have been adjusted during non-student days
- 5/18 – Choir, Guitar, Dance Crew Spring Show - Time & virtual venue, TBA
- 5/20 - Lion Award ceremony - 6:00pm - 7:30pm. Link to follow soon
- 5/21 - Lion Award certificate pick-up
- 5/26-5/27 - Yearbook handouts
- 5/26-5/28 - Chromebook / tech collection

8th grade activities (celebration drive through) – more information to come

Date: May 25, 2021

Times: 10:00-12:30

Location: Back of School- Drive Through

Alphabet for drive through:

10:00- 10:30- A-E

10:30- 11:00- F- J

11:00- 11:30- K- N

11:30- 12:00- O- U

12:00- 12:30- V- Z

Ten of our ACE (Achieving Creative Excellence) students presented their capstone project and participated in reflective interviews with the entire staff last Thursday. This was a great opportunity for the Lexington staff (classified and certificated) to see the confidence it brings out in our students. Everyone I spoke with shared their excitement to see our students shine creatively and share their voice and purpose through their artwork, literature, welding, cooking, media,... It was a great morning. Enjoy some of the pictures:

Have a great week,

Principal Daniel Klatzker

The Forever Trilogy
by Nadine Go, Stephanie Tan, et al.
Paperback

MAY 26-27	CHROMEBOOK & TECHNOLOGY	8:30-2:30PM
MAY 28	CHROMEBOOK & TECHNOLOGY	8-2PM

Remote Testing Troubleshooting 2020-21

Computer Issues

- **I can't download the browser!**
- **I really can't download the browser or I have a different problem with my personal device and need to check out a school device!**

Logging in to the secure browser and test session

- **I can't figure out how to get into the secure browser and into the test!**
- **When I log in to the test, there was no camera or microphone check option. I can't turn my camera on!**

COMPUTER ISSUES

Problem: I can't download the browser!

- If students have a ***school-issued Chromebook***, they should *not* be trying to download the secure browser. In no circumstances are students able to download apps to school-issued devices; in this case, they wouldn't need to anyway.
 - If their Chromebook is up to date, the browser will already be there.
 - If their Chromebook is not up to date, they will have received an email asking them to come in to exchange it for a newer one. If they haven't done that yet, they still can and should.
- If they have a ***school-issued Chromebook***, say they never got a message saying they needed to exchange it, or say they already exchanged it and they *still* can't find the browser, have them review slides 14-17 of this [this presentation](#) for getting into the secure browser by *first* signing out of their Chromebook. They cannot be signed in to their Chromebook and access the secure browser. (Slides 22-23 also show them how to exit the secure browser so they can continue using the Chromebook for their other classes.)
- If students have ***personal devices***, they should be able to download the secure browser.
 - Specific details about which browser to download for which operating systems are [here](#). If students scroll toward the bottom of the page there are direct links for the downloads.
 - A video showing how to download the browser for Windows is [here](#) or for Macs go [here](#).
 - Special note about ***Macs***: there are very specific steps to follow in the directions above, and there are also a few other issues (like disabling "Spaces"). Additional troubleshooting tips for Macs can be found [here](#).

If they run into too many problems with their Macs, they can check out a school-issued Chromebook (see below).

Problem: I *really* can't download the browser or I have a different problem with my personal device and need to check out a school device!

- Students should *only* come to the school to get a school-issued device *if*:
 - their personal device is a Chromebook; if students have a *personal* Chromebook, Google won't support the download;
 - their personal device is too old to support the download (and all system requirements are in the links for the directions);
 - their personal device does not have a working camera or microphone.
- In these cases, if students *do* need to come get a school-issued device, they need to have their parents fill out this [form](#) and sign up for an [appointment](#). To allow time for a Chromebook to be made ready, please ask them not to schedule a same-day appointment.

LOGGING IN TO THE SECURE BROWSER AND TEST SESSION

Problem: I can't figure out how to get into the secure browser and into the test!

- Review this [presentation](#) which includes step-by-step screenshots of getting into the test.

Problem: When I enter my Name, SSID, and Test Session ID, I get a "No Match" error!

- Students will need their SSID. They can find their *10-digit* SSID in Aeries by following the steps in this [video](#).
 - Students should *not* enter their 7-digit Walker student ID.
- Students will need the Test Session ID. This will be provided to them the day of the test by their teacher. Be sure to enter it *exactly* as the teacher provides it.
 - Do not try to copy and paste the Session ID. Students need to type it in.
- Students will need their legal first name as it appears in Aeries.
 - No nicknames or shortened forms of names (e.g., Joseph instead of Joe or Jose)
 - You may need to include a middle name if that's how it is recorded in Aeries (e.g. Joseph Alex instead of just Joseph).
 - In rare cases, what's in Aeries doesn't match what is in the testing system. If students are positive they've entered their SSID and the Test Session ID correctly and they still get a "No Match" error message, email Dr. Sell and I will look it up in the test system.

APRIL 26, 2021

Problem: When I log in to the test, there *was no* camera or microphone check option. I can't turn my camera on!

- This one might be a teacher issue. When teachers set up the test session, they have to select the "Remote or Hybrid" option, *not* "In Person." See slide 59 of this [presentation](#).

Other Issues:

1. Discord. Kids think they closed it by clicking the "X" but it really just minimized. They need to close it from their taskbar tray. A super short video is included to show them how.
2. Macs and "Spaces enabled" issues. They can disable Spaces. I have a link to a site that walks them through it step by step.
